CAPABILITY STATEMENT

TCecure empowers clients to build and maintain effective cybersecurity programs.

Our Core Capabilities

✓ **Cybersecurity Program Management & Advisory Services**

We provide subject matter expertise to client leadership developing, implementing, supervising, and monitoring their cybersecurity programs. We identify and apply relevant regulatory requirements, standards, and frameworks to support compliance (FISMA, FAR/DFARS, CMMC, NIST RMF, NIST CSF, NIST SP 800-53 and 800-171, DHS 4300A, and more). TCecure has developed and implemented security governance and risk management programs for large federal contractors and a local college. We also developed written programs, policies, procedures, and artifacts for large federal DoD and civilian contractors.

✓ **Security Risk Assessment & Mitigation**

We assess our client's current cybersecurity risk posture using industry best practices, frameworks, and standards. We then develop and implement mitigation strategies to close gaps, reducing vulnerabilities and exposure to risks. TCecure supported DoD and civilian contractors in obtaining authorization to operate (ATO). We have performed assessment and mitigation services for federal DoD and civilian agencies, as well as large and small contractors.

✓ **Security Engineering & Software Assurance**

We develop, test, and implement security and privacy controls to harden client IT environments and applications against attack vectors, using a variety of industry-recognized tools. We specialize in continuous monitoring, configuration management, and patch management solutions to proactively prevent vulnerabilities. TCecure installed, configured, and upgraded multiple platforms, network solutions, and physical and virtual servers for a DoD agency. We also provided ISSO and security-focused network and system administration support.

✓ **Security Training & Education**

We develop and deliver cybersecurity training and education tailored to our client's goals, desired modalities, and the audience. TCecure has provided training courses to federal DoD and civilian agencies, commercial businesses, colleges, and a local school system. We managed training and DoD 8570 certification requirements for a DoD agency, including quarterly reporting with evidence of credential maintenance and personnel compliance.

Why TCecure?

CAGE CODE: 6ZP03

UEI: CH11ABMGBJ78

DUNS NUMBER: 078853476

Federal Contract Vehicles:

GSA MAS 70, SIN 54151S (prime)

GSA OASIS (sub)

Army ITES-3S (sub)

Socioeconomic:

Woman Owned Small Business (WOSB)

Small Disadvantaged Business (SDB)

MDOT-certified Small, Minority, Disadvantaged
Business Enterprise (SBE, MBE, DBE)

NAICS codes:

541690 – Other Scientific and Technical
Consulting Services (primary)

541519 – Other Computer Related Services

541618 – Other Management Consulting
Services

541990 – All Other Professional, Scientific, and
Technical Services

611430 – Professional and Management
Development Training
... and more

Knowledge – TCecure’s expert staff has decades of experience and industry-recognized certifications in project management and cybersecurity (PMP, CISSP, CIPP, CDPSE, CompTIA Security+, etc.).

Experience – For over 9 years, TCecure has provided cybersecurity consulting, solutions, and education to federal and state government agencies, large and small businesses, and academic institutions.

Value Adds – TCecure offers CyDeploy, an automated tool that tests security updates to identify/prevent operational impact, and CySkills, a customizable Learning Management System for on-demand training.

Happy Customers –

“TCecure’s skills in Cybersecurity Business Analysis... Information Technology practices, Cybersecurity, and Risk Management Strategic Planning services are strong and comprehensive. TCecure is extremely knowledgeable of the current events, the cybersecurity landscape, and governmental regulations. They worked well with people at all knowledge levels and communicated effectively.”

“TCecure helped [us] save money... They supplied knowledgeable and experienced engineers [who] were proactive in identifying and resolving possible issues... All due dates were met or exceeded... [They] maintained excellent communication.”

“TCecure has been a trusted partner on this program for more than five (5) years... They are communicative, responsive, and their personnel are highly valued by the Government customer. They meet deadlines, and correct any issues identified.”

Our Vision: We are a valued and trusted partner to our clients, consistently delivering services that provide effective cybersecurity governance, engineering, and training.

Our Values: Accountability, Professional Curiosity, Transparency, and Approachability.
