CAPABILITY STATEMENT

At TCecure, we exist to deliver certainty in an uncertain digital world. We empower organizations to protect what matters most—their mission, their data, and their resilience—by providing purpose-driven, end-to-end cybersecurity solutions tailored to complex operational environments.

Our Core Capabilities

✓ **UNDERSTAND – Cyber Risk Strategy, Program Management & Advisory**

We help leaders gain full visibility into their security posture and regulatory requirements to establish strong governance and clear strategic direction. TCecure provides specialized expertise to assist client leadership in designing, implementing, managing, and monitoring scalable cybersecurity programs. We enable compliance and mission alignment by interpreting and applying standards such as FISMA, FAR/DFARS, CMMC, NIST RMF, NIST CSF, NIST SP 800-53, NIST SP 800-171, DHS 4300A, and federal DoD/civilian frameworks.

✓ **PROTECT – Security Engineering, Controls Implementation & Software Assurance**

We design, build, and enforce robust defense mechanisms across systems, networks, and software to safeguard critical assets against evolving attack vectors. Our team implements and tests robust security and privacy controls, leveraging industry-leading tools for continuous monitoring, configuration management, and patch management. TCecure has extensive experience in securing diverse platforms, network infrastructures, virtual environments, and delivering dedicated ISSO and RMF support to meet stringent DoD and federal standards.

✓ **STAY READY – Risk Mitigation, Continuous Assessment & Workforce Training**

We prepare organizations and workforce teams to anticipate threats, sustain compliance, and maintain operational readiness through continuous evaluation and education. We evaluate risk postures, support organizations in achieving and maintaining Authorization to Operate (ATO), and deliver tailored cybersecurity training programs for federal agencies, commercial enterprises, and academic institutions (learn more at tceecure.com/training).

Why TCecure?

CAGE CODE: 6ZP03

UEI: CH11ABMGBJ78

DUNS NUMBER: 078853476

Federal Contract Vehicles:

GSA MAS 70, SIN 54151S (prime)

GSA OASIS+ WOSB (prime)

GSA OASIS+ Small Business (prime)

MDA SHIELD (prime)

State Contract Vehicles

Maryland Dept of IT CATS+
